It was quite cold outside, and the Martian obviously didn't like the cold, but he was on guard duty, so what was he gonna do?

He was just starting to come around the prow of the ship while cursing underneath his breath, "damn Isaac, I should of did the dishes instead" when he heard the door open,

So he obviously went to go and check it out, but he was surprised to hear sobs, and even more so to see Mia leaning over the railing, crying.

"What's wrong Mia?" He asked while sidling up next to her.

"It's nothing" she replied, looking the direction opposite of Garet.

" Well something's gotta' be wrong if your crying, you don't have to lie, It's not like I'm going to tell anybody anything", He told her with a softened expression on his face.

" Well....", "It's just that Isaac.....he.... He doesn't love me" saying these words caused another wave of cries from the blue haired Imilain.

" Well... how do you know that he doesn't?"

" I know he doesn't because I saw him and Jenna kissing while we were in Contigo"

" Now I know that nobody loves me" she managed to say through her crying.

" You shouldn't say that Mia, I mean... you're beautiful, you're smart, you're funny and

Your always there if someone need's to be cheered up, god I could go on and on"

" And... I love you"

Soooooooo do you want me to go on ?
